

MICROBLADING

Technician Training Program

RED DEER

From the arch to the length, the perfect brows are essential to framing your face, balancing your features and defining your eyes. That's why we've partnered with **Brows by G** to bring you the latest in eyebrow technology: **MICROBLADING**. Using a manual tool and multiple micro needles, this innovative technique deposit pigments in the superficial layer of the skin; creating a semi-permanent, natural and fuller looking brow. Through this hands on course, you'll benefit your career by expanding your skill set and create more revenue for yourself and your business.
